

In Year 1 we have been wondering about where and how people will travel in the future.

Where might people take holidays in the future?

How might modes of transport change in the future?

What will the climate of your home country be like in the future?

Can you research these questions and then create a poster advertising a holiday from the future?

In Year 1 we have been wondering about how people explored the world in the past.

Why is Ernest Shackleton famous? How did Sir Ranulph Fiennes lose his fingers?

What would be the greatest challenge these gentlemen faced? Can you research these questions and then write a diary entry, imagining that you are one of these famous explorers?

Our World

In Year 1 we have been wondering about differences between countries.

Which country is the hottest?

Which country is the coldest?

How could you travel between these two countries?

Can you research these questions and then create a suitcase, containing all of the things you would need for this journey?

Home Learning can be returned anytime up until 10th July 2017.
